TC-CF3 PRODUCT GUIDE

TC-CF3 Carpet Clip Female

The TC-CF3 is designed as a carpet clip for 3-5mm carpet that doesn't absorb heat from the sun, making it a superior alternative to metal studs that burn sailors' feet in marine applications. The TC-CF3 winds through a 16mm (5/8") hole punched into the carpet using the Fastmount CT-10 installation tool. The four wings tighten up onto the underside of the carpet holding it secure. Use with the TC-CSM6 on fibreglass or aluminium decks, or the stick-on TC-CSM6 can be used on a painted or fibreglass deck surface. The carpet is then clipped into place holding it secure. Use the CT-05 to lift the carpet off the male clip. 400mm max spacing recommended between clips.
