

STRATLOCK SL-R

FIRE RATED RAIL CONNECTORS

These additions to the Stratlock Range represent significant improvements over the existing metal connectors. Designed for seamless integration in applications where the Stratlock system is already preferred, these fire-rated plastic connectors offer a much more efficient installation process, simply clicking onto the Stratlock rail by hand, with only a couple of final screws required to secure them in place.

SL-C-WW90-FR: WALL TO WALL CONNECTOR

The SL-C-WW90-FR provides a 90° fixed joint between the SL-RLE groove and profile end when building a wall or ceiling. It combines with the SL-C-WC90-FR for a wall to ceiling connection. Made from fire rated Grilon ASV0 plastic it provides a strong frame connection. Installs with standard screws (Stainless Steel) with no special tools required.

SL-C-WC90-FR: WALL TO CEILING CONNECTOR

The SL-C-WC90-FR is a 90° connector that pairs with the SL-RLE to create a wall to ceiling, perpendicular connection. Made from Fire Rated Grilon ASV0 plastic. Fits into SL-RLE profile end and SL-RLE side groove. Installs with standard screws (Stainless Steel) and installs into SL-RLE.
