

# Product Catalogue 2025

Sophisticated and functional designs made easy.

Welcome to Fastmount  
panel mounting solutions.

**Designed for removable panels in the marine, architectural, furniture and RV industries, the award winning Fastmount hidden mounting system delivers a flawless finish with perfect alignment every time.**

The secret to Fastmount is the unique range of hidden clips ideal for secure fastening of removable panels. With Fastmount, interior panels can be easily removed and refitted in any sequence, time after time.

Combining speed, versatility and accuracy, the Fastmount system enables designers, installers and contractors to re-think the panelling process.

Whether you're mounting ceiling panels to wooden framework, heavyweight wall panels to aluminium profiles, or outdoor cushions to a seat, Fastmount has a hidden mounting system to suit your needs.

Fastmount is the original panel mounting solution designed to perform on sea, land and in the air. All of our systems are real world and third-party tested. Applications of use are only limited by your imagination.

Panel mounting solution:

**PC-F1A** - ceiling panel

**PC-M2H** - ceiling substrate

**LP-F8** - wall panel

**LP-M8A** - wall substrate

**MC-M5** - floor panel

**MC-F5** - floor substrate

Panelling,  
limited only by  
your imagination.

Panel mounting solution:  
**PC-F1A** - substrate  
**PC-VMX** - panel

Perfect Alignment

Easy Installation

Less Downtime

Easily Removed

Safe and Secure

## BENEFITS

- No visible fixings
- Allows for repeated removal and replacement of panels
- Eliminates panel damage – install panels during final build stages
- Variety of mounting options – self tapping, glue and screw fix
- Allows for panel flex and expansion
- Provides cavities for services and enhanced acoustics

## APPLICATIONS

- Ceilings, walls, feature panels, furniture and upholstery
- Access, inspection and ventilation panels
- Interior and selected exterior applications
- Upholstered, painted, prefinished, composite and acoustic panels
- Mounts into a wide variety of substrates e.g. GRP, composite, honeycomb, aluminium
- New build, refit and upgrades

The Standard range,  
for a finish that's anything  
but standard.

Panel mounting solution:  
**PC-F1A** - substrate  
**PC-M2H** - panel

## STANDARD PC RANGE

The Standard Range offers hidden panel mounting solutions for a variety of applications, and includes self-tapping, screw and adhesive fix options. Pull-out loads vary from 5-15kg/11-33lb, depending on the male clip used. The Standard Range is ideal for mounting wall and ceiling panels where the standoff between frame and panel does not need to be kept to a minimum. Male and female clips are interchangeable within the range.

*Common uses: Wall and ceiling panels, acoustic panels, prefabricated panels and seat backs.*

Change  
panels  
whenever  
you want.

## LOW PROFILE LP RANGE

The Low Profile Range offers self-tapping, screw and adhesive fix clips for mounting wall panels that require less space between panel and substrate. Available in 5-15kg/11-33lb pull out loads depending on the male clip used.

The Low Profile Range is ideal for mounting wall panels, with female clips specifically designed to self-tap into curved substrates, drywall and MDF or foam core.

*Common uses: Mounting decorative wall panels to drywall substrates, curved panels to curved walls, and non-upholstered panels to walls.*

**LP-M8A**

SELF TAPPING FEMALE

**LP-SM8H**  
LOW PROFILE CLIP,  
SURFACE MOUNT  
MALE

**LP-DF8**  
LOW PROFILE CLIP,  
SELF TAPPING COARSE  
THREAD FEMALE

Simply easy.

Panel mounting solution:  
**VL-F3** - substrate  
**VL-M3** - panel

## VERY LOW PROFILE VL RANGE

The Very Low Profile Range offers the least space between panel and substrate, and is suited to very thin substrates and/or panels with no special tools required for installation. Clips can be recessed, screw, rivet or adhesive fixed. Pull-out loads vary from 5-10kg/11-22lb per clip set, with a certified fire-rated version available.

*Common uses: Thin upholstered plywood panels, signage, aluminium honeycomb panels.*

Heavy-duty,  
with fire-resistance.

When you have a heavy duty application that requires fire rating plus heavy load bearing, the Fastmount Metal Range is up to the job. Able to hold up to 50kg per m<sup>2</sup>, heavy panels can be mounted accurately and safely.

Panel mounting solution:  
**MC-M5** - floor panel  
**MC-F5** - substrate

## METAL MC RANGE

The Metal Range is recommended for more heavy-duty applications that require a robust hidden fixing. Self-tapping, screw or rivet and self-adhesive fix options are available, with pull-out loads of 5kg/11lb or 10kg/22lb depending on clips used. Stainless Steel clip set (patent pending) has been designed for high fire resistance and durability, and can be used on ceiling and wall panels.

*Common uses: heavyweight wall and ceiling panels, fire-rated panels and egress paths, metal panels.*

with adjustable,  
effortless installation.

Panel mounting solution:  
**SL-M18FR** - ceiling panel  
**SL-RLE + SL-RCF90 + SL-FA-FR** - substrate

## STRATLOCK SL RANGE

The Stratlock Range is a heavy-duty panel mounting solution for mounting heavy interior panels onto aluminium U channel, timber battens, Stratlock Rail or direct onto plywood, designed specifically for the contract interior fitout industry. With no special installation tools required, the Stratlock Range is a hidden fixing that installs rapidly into the framework and panel, provides supported adjustment of the panel before locking into place, and boasts our highest shear strength and pull out load of 40lb.

*Typical applications include: Heavy wall and ceiling panels in the interiors of hotels, hospitals, retail and residential.*

Peace of mind.  
Guaranteed.

Seismic restraint providing added security and control. The panel is suspended below the ceiling for convenient servicing behind the panel or controlled removal of the panel by releasing the wire.

## PANELSAFE PS RANGE

PanelSafe restraint systems provide added security and control to panel removal.

With the use of the PanelSafe, a panel can be suspended below the ceiling for convenient servicing behind the panel or controlled removal of the panel. Suitable for use with the PC, LP, VL, MC and SL clip ranges.

*Ideal for: Inspection panels, large and/or heavy ceiling panels. To ensure quality installation and performance, installation and removal tools are available.*

Note: Custom products have a three week lead time.

## TEXTILE TC RANGE

The Textile Range is designed for mounting soft textiles to fabrics and hard surfaces in both interior and exterior settings with clip sets holding up to a 32kg/70lb break out load. Utilising a simple slide lock system, the Textile Range offers hidden and secure cushion fastening.

*Typical applications include: Sun loungers, exterior cushions on superyachts, seat bases and backs. Patent Pending.*
