

# Furniture & Cabinetmaking Catalogue 2025

Enabling versatile & functional furniture designs.

FURNITURE - CABINETRY - BENCHTOPS - TEXTILES

**FASTMOUNT**  
PANEL MOUNTING SOLUTIONS

## Hidden furniture fasteners for seamless, functional designs

Fastmount's hidden furniture connectors are engineered specifically for furniture applications, providing secure, removable connections that maintain perfect alignment while preserving the clean aesthetic of your designs. Fastmount connectors are designed, quality controlled and tested to be used multiple times (500+) with no breaks and maintaining holding load. From kitchen cabinetry and retail displays to high-end residential furniture and commercial interiors, our specialized connectors solve the most challenging furniture assembly problems.

Compatible with CNC machining, Fastmount fits seamlessly into the manufacturing and installation processes, allowing installers to install clips off-site, reducing time on-site which increases efficiencies. Alternatively, Fastmount centre points allow easy alignment in the field or when CNC machinery is not possible or available. Components are easily removed, allowing easy cleaning and opportunity for quick and easy retrofit.

### BENEFITS

- No visible fixings
- Allows for repeated removal and replacement of components, maintaining holding load (+500 times)
- Enables the design and manufacturing of modular furniture & cabinets
- Extend your product lifetime, by allowing easy retrofit, upgrade, and cleaning and replacement of components
- Enables easy installation in the field, reducing damage during transportation
- Broad product range, covering a variety of solutions, including self tapping, glue and screw fix options

### APPLICATIONS

- Installation of upholstery, wood and painted panels/components
- Attach structural components for modular design
- Hold cushions in place

Easy Installation

Repeated Removal

Enables Modular Designs

Extend Your Product Lifetime

## Attachment of decorative and upholstered panels to furniture

Transform furniture designs with upholstered elements that attach precisely and securely yet can be removed and reattached multiple times.

Panel mounting solution:  
**VL-F3** - substrate & **VL-M3** - panel

## Attachment of end panel on kitchen cabinets or furniture

Create seamless connections between end panels and cabinet bodies maintaining clean lines. Allows easy installation in the field, avoiding damages in the transportation and allowing easy replacement in case of damages.

Panel mounting solution:  
**VL-F3** - substrate & **VL-M3** - panel

## Enable designs with a longer lifetime

Differentiate your product by extending its lifetime and making it more sustainable. Fastmount connectors allow easy retrofit, upgrade, and cleaning and replacement of components.

Panel mounting solution:  
**VL-F3H** - substrate & **VL-M3H** - panel

## Create modular furniture systems

Design furniture that can be easily reconfigured, or adapted to changing needs with hidden connectors that ensure perfect positioning every time.

Panel mounting solution:  
**VL-F3** - substrate & **VL-M3** - panel

# Attachment of access panels for cabinetry and benchtops to kitchen carcasses

Streamline your manufacturing using Fastmount connectors and CNC machinery, or Fastmount Center points, while improving precision and simplifying installation.

Panel mounting solution:  
**PC-VM1** - substrate & **PC-RF1** - panel

# Attach cushions to furniture

Secure cushions and upholstered elements to furniture frames preventing shifting while allowing for easy removal and cleaning.

Textile mounting solution:  
**TC-M6** - substrate & **TC-F6H** - textile

## VERY LOW PROFILE VL RANGE

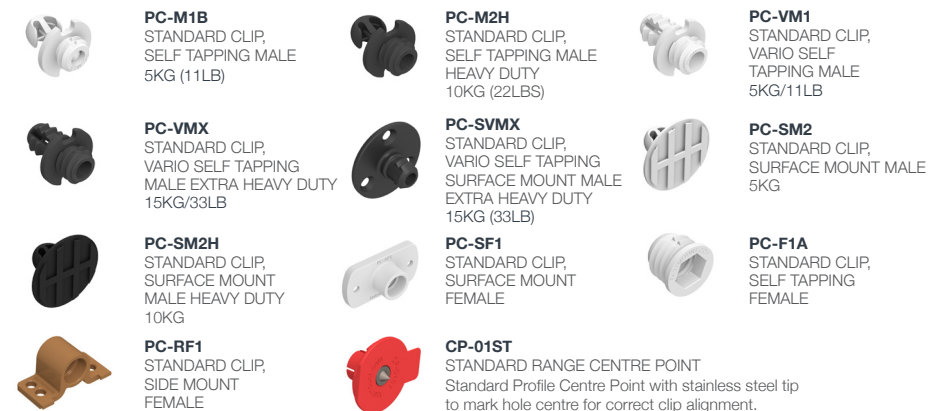

VL-F3H and VL-M3H clips also available in fire rated versions.

## LOW PROFILE LP RANGE

## STANDARD PC RANGE

## TEXTILE TC RANGE

The products listed above are our recommendations for furniture and cabinetmaking.
